Description

Our white children's bib apron combines stylish and functional design in one package. The white colour is classic and neutral, making it a versatile choice for a variety of activities and educational settings.

This apron is made of a durable SARGA fabric, composed of 65% polyester (PES) and 35% cotton (CO). This combination of materials ensures exceptional durability, meaning it can withstand daily wear and tear and frequent washing.

Unlike other aprons, this model is characterised by its pocketless design. This not only contributes to the overall aesthetics, but also makes it easier to clean and maintain. With no pockets to collect dirt or mess, this apron remains spotless at all times.

The apron features knotting straps made from the same durable fabric. These straps offer a comfortable and secure fit, allowing the apron to adapt to different sizes quickly and easily.

Thanks to its high quality fabric, this apron is easy to care for and clean. It can be machine washed without worrying about losing its shape or colour, making it a practical choice for everyday use.

Available sizes

4 8 12
