Description

High Temperature Plasticised Terry Cloth Bib Apron, an exceptional choice for environments where strength and protection are paramount. This stain resistant apron, made with plastic-coated towelling on the inside, is specifically designed to withstand high temperatures, giving you the confidence and comfort you need in demanding work environments.

Its waterproof design makes it the perfect choice for a variety of professionals, from chefs and kitchen staff to healthcare professionals in environments such as nurseries, care homes and retail. Heat resistance and waterproofing make this apron ideal for the food industry, where protection against splashes and extreme temperatures is essential.

This apron not only offers functionality, but also meets the standards of style and durability. Make sure you provide your staff with the best protection and comfort with the High Temperature Plasticised Terry Bib Apron - order today and equip your team with the best sanitary workwear available on the market!
