001 101 105 107 118

Reference: 126400-001 · BLACK

Description

The ANDREW stain resistant apron is made of high quality polyurethane, a material that provides exceptional strength. Polyurethane is known for its durability and ability to resist wear and tear.

The apron has an adjustable harness and heat-sealed eyelets, with no metal elements. This ensures a custom fit and increased durability, as well as preventing rusting of metal components.

The waterproof polyurethane of this apron provides exceptional protection against spills, splashes, animal fats and blood, making it ideal for demanding environments such as the food industry.

The ANDREW apron is designed to offer protection against mechanical hazards, giving the wearer peace of mind in potentially hazardous work environments.

Its impermeability, high resistance to animal fats and blood and its protection against mechanical hazards make it suitable for use in the food industry.

Available sizes

UD

Size guide

Measurements may vary slightly due to the production process. The garment is measured flat.

MEASURE (cm)	UD
WIDTH	90
