Reference: 126500

Composition / Treatment

100% Polyurethane - 230 gr/m²

Available colors

101 105 118

Reference: 126500-101 · WHITE

Description

The PETER apron is made of high quality polyurethane, a material renowned for its durability and resistance. This material is highly effective in protecting against animal fats, blood and other liquids.

This stain resistantapron comes in one piece, without pockets. This minimalist design not only looks clean and professional, but also makes it easy to clean and maintain.

The apron has side straps for knotting, allowing for a customised and comfortable fit. These straps ensure that the apron stays in place throughout the working day.

High quality polyurethane provides exceptional strength and protection against mechanical hazards, animal fats and blood. This apron is designed to meet the most demanding challenges in the food industry.

Despite its strength, polyurethane is flexible and comfortable to wear during long working days. It allows you to move freely without feeling restricted.

Due to its high resistance to animal fats and blood, protection against mechanical hazards and impermeability, it is ideal for use in the food industry.

Available sizes

UD
