Composition / Treatment

SARGA 100% PES - 208 gr/m²

Available colors

Description

This chasuble is made entirely of high quality polyester. This material is known for its durability and strength, making it an ideal choice for demanding work environments.

Designed in a double apron style, which means it covers both the front and back of the body. This feature provides increased protection and coverage, especially in environments where high hygiene and cleanliness is required.

There are two practical pockets on the front. These pockets offer convenient space for carrying tools, utensils or any other items needed for the job.

Reversible garment, allowing both pockets to be worn on the inside and outside.

The side straps allow the chasuble to fit securely around the waist. This ensures a comfortable, custom fit for each wearer, which is essential for staying comfortable during the working day.

The chasuble is available in a wide range of colours, allowing you to choose the one that best suits your preference or the specific requirements of your workplace.

The versatility of this chasuble makes it ideal for a variety of sectors, including hospitality, kitchen, children's centres, cleaning, warehousing, food or general retail. It is a practical choice for professionals looking to remain tidy and presentable in their daily work.
