Composition / Treatment

AEROSILVER 100% PES - 140 gr/m²

Available colors

5144

Reference: 220001-5144 · KUKUVACAS

Description

The bandana is made of 100% PES AEROSILVER technical fabric (140gr/m²), which guarantees high breathability and durability. This technical fabric is essential to stay comfortable in an active working environment.

Our Tubular Bandana can be worn in multiple ways: as a fleece to keep sweat at bay, as a collar to protect you from the cold or as a cap to keep your hair tucked in and clean. This versatility makes it an ideal choice for hospitality professionals, especially cooks and chefs.

We offer three fun and original KUKUXUMUSU prints to add a touch of personality and style to your uniform. These unique designs allow professionals to express their individuality while working in comfort.

The KUKUXUMUSU Bandana is designed to withstand the demands of everyday work in the hospitality industry. It is easy to wash and maintain, making it a long-lasting investment.
