Available colors

275

Reference: 309700-275 · VICHY BAMBULA ANTIBACTERIAL PISTACHIO SIZE

Description

This babi features long sleeves and a closed design that provides full coverage. The long sleeves are ideal for the colder seasons and provide extra protection.

A central inner pocket is perfect for children to store personal items safely. This design is especially useful for preventing items from falling out or getting lost.

Elasticated cuffs and collar ensure a comfortable and secure fit. This prevents the babi from sliding up or causing discomfort to the child during school activities.

This babi is made of antibacterial bambula, a fabric that helps prevent the growth of bacteria. This is essential for maintaining a hygienic and safe school environment.

The underside of the front features an attractive rainbow print that adds a touch of colour and cheer to the babi. This design is especially appealing to children.

In addition to its antibacterial property, the babi has a water-repellent treatment that makes it resistant to liquid absorption. This is essential to keep the child dry and comfortable during the school day.

The ARCOIRIS bib is comfortable to wear and easy to care for. Its durable design makes it easy to wash and iron, saving time for busy parents and educators.

Available sizes

4
