Description

This cap embodies the creativity and originality of Agatha Ruiz de la Prada in every stitch. Each print is a work of art that reflects the unique passion and style of this renowned designer.

Available in six different prints, the Agatha Stripes Surgeon Cap allows beauty professionals to stand out without sacrificing a professional look. Whatever your preference, you will find a design that represents you.

The one-size-fits-all design adapts to different head sizes thanks to its elasticated back. This ensures a comfortable and secure fit throughout the day, which is essential in demanding work environments.

This cap is made from high-quality microfibre, a 100% PES MICROFIBRE fabric (148 g/m²), which combines durability with a soft and comfortable feel. It also features a terry cloth band at the front that helps absorb sweat and keep your forehead dry even during high-activity situations. The fabric is resistant to diluted bleach splashes.

While ideal for healthcare professionals such as nurses, doctors and veterinarians, this cap can also be used by other professionals in environments where a comfortable and stylish cap is required.
