### Composition / Treatment

REJILLA 100% PES - 65 gr/m²

### Available colors

101

104

**Reference: 405100-101 · WHITE**

### Description

The cubrenuca cap features a solid visor that provides additional protection from sunlight and splashes, which is essential in kitchen environments.

The incorporation of a grille at the top of the cap ensures optimal ventilation. This is crucial for keeping the head cool and comfortable during long working days.

The presence of an elasticated lining at the back of the cap provides a comfortable and secure fit. In addition, the liner protects the back of the neck from splashes.

These caps are available in one size and in a variety of colours, including white and navy, to suit your preferences.

The rigid visor and liner ensure that professionals can work comfortably and be protected at all times.

Elastic at the back of the cap ensures a custom fit, regardless of head size.

Ideal for uniforms in catering, food service, warehousing, bakeries and pastry shops or general trade.

### Available sizes

UD
