Reference: 445800-2894 · BARK

Description

The cap is made of 100% RECYCLED POLYESTER MICROFIBRE, which means that each cap contributes to the preservation of the environment by giving recycled materials a second life. This also guarantees long-lasting and durable quality.

Original nature-related prints add a touch of freshness and originality to your uniform. The flora and fauna inspired designs are ideal for those who wish to maintain a connection with the natural environment.

This cap features back straps for adjustment and knotting, allowing for a custom fit and a firm hold during long working days.

The terry loop on the inside front of the cap helps to absorb perspiration and keep the forehead dry, which is essential in a kitchen or hospitality environment.

The hat is available in one size, ensuring it fits a variety of head sizes.

The recycled fabric shows that your business cares about the environment and is committed to sustainability.

The back straps and terry loop on the inside ensure that professionals are comfortable during long shifts.

Ideal for nurses, doctors, veterinarians and other professionals in hospitals, medical centres and clinics.

Available sizes
