Composition / Treatment

Outer layer POLYURETHANE 80 gr/m² - Inner layer INTERLOCK 50 gr/m²

Available colors

101

Reference: 450700-101 · BLANCO

Description

Made of 80gr/m² POLYURETHANE, this balaclava offers a 50gr/m² INTERLOCK inner layer, which guarantees durability and resistance.

The Polyurethane balaclava has a water repellent finish that repels splashing liquids, making it ideal for wet and challenging situations.

This balaclava offers excellent resistance to microbial penetration in wet conditions, providing an additional layer of protection against contaminants.

You can rely on its durability, as it is reusable up to 40 wash cycles at 90°, making it economically efficient.

Polyurethane balaclava dries quickly and is suitable for both open and closed spaces, offering a wide range of applications.

The combination of polyurethane and interlock inner layer provides protection against splashes, contamination, dust, smoke and harmful irritants.

The carefully crafted design ensures that the balaclava fits comfortably and stays in place throughout your working day.

Reusability and washability make this balaclava a smart long-term investment.

This makes it an indispensable accessory for uniforms in laboratories, hospitals, clinics and medical centres.

Available sizes

UD
