BAMBULA 65% CO 35% PES - 165 gr/m²

Available colors

274 275

Reference: 598300-274 · VICHY BAMBULA ANTIBACTERIAL FUCHSIA

Description

The long sleeve design provides adequate coverage for a variety of work situations, keeping professionals comfortable at all times.

The central zip fastening makes it easy to put on and take off the gown quickly and easily, which is essential in fast-paced environments.

Elasticated cuffs keep the sleeves in place, which is especially useful in busy, active situations.

Two side pockets provide additional space for convenient storage of work tools or personal items.

The semi-fitted model with back darts and chest seams offers a flattering and comfortable fit.

The gown is made of antibacterial bambula, a fabric that offers odour-preventing bactericidal properties and a sanitary protective barrier. It also has a water-repellent finish for liquid repellency and stain resistance.

The rainbow print on the pockets adds a touch of colour and cheerfulness to the design of the gown.

It retains its antibacterial and antibacterial properties for up to 25 wash cycles at 60°C, ensuring a long service life.

Available sizes

XS

Size guide

Measurements may vary slightly due to the production process. The garment is measured flat.
