Description

Discover the versatility and comfort of the Gari Unisex Jacket, a garment designed for healthcare professionals and other work sectors. This short-sleeved jacket features a fashionable V-neck and two front pockets for added functionality. The loose-fitting, raglan sleeved garment features back seams and side slits for a comfortable, flattering fit.

Made in a wide range of colours from Microfibre 360 (95% Polyester - 5% Elastane), a revolutionary fabric with Silvadur antibacterial treatment. Silver ions provide protection and freshness while absorbing and keeping sweat away from the skin, facilitating perspiration. The 360° stretch property allows it to stretch in all directions, offering greater comfort and freedom of movement.

Ideal as a uniform for nurses, doctors and other healthcare professionals in hospitals, clinics and medical centres. It is also perfect for use in pharmacies, veterinary practices, beauty salons, spas and retail outlets. Elevate your professional image with Gari's distinctive style and comfort.

Available sizes

XXS XS S M L XL XXL 3XL
