Description

These trousers feature a figure-flattering, slim-fitting design for a sleek and polished look. The mid-rise waist provides a comfortable fit that adapts to a variety of body shapes.

There are two front pockets and two back pockets, providing convenient storage space for small items or essential work tools.

This model includes belt loops at the waist, allowing the use of belts for an additional, customised fit.

The trousers close with a button and front zip, ensuring secure closure throughout the working day.

The CHEVIOT fabric used in these trousers consists of 97% cotton and 3% elastane. This combination provides a stretch fabric that guarantees comfort and freedom of movement. In addition, the unstructured look of the yarn gives it a casual elegance.
