Description

These men's trousers are made from CROSS ELASTIK INTERLOCK KNIT 92% PES 8% EA 215 g/m², a fabric that combines flexibility and elasticity. This choice of material not only guarantees a durable garment, but also reflects your commitment to quality and attention to detail.

CROSS ELASTIK offers a compact weave structure, providing a soft and opaque feel. In addition, its water-repellent properties mean that the garment not only protects you from leaks, but also keeps you comfortable during the longest days.

Furthermore, its 8% elastane content makes the garment exceptionally elastic. This means that the trousers adapt comfortably to your movements, allowing you to perform work tasks with complete freedom. Comfort in the active environment of the hospitality industry is paramount.

Ideal for waiters, receptionists, shop assistants and other hospitality and retail professionals.
