Description

This jacket is made of CHEVIOT fabric, which consists of 97% cotton and 3% elastane. Cheviot fabric is known for its durability, strength and comfort. The addition of elastane gives the garment the elasticity needed to move easily during long working days.

The inner lining of this jacket provides additional comfort and helps to maintain its shape. The back of the jacket has a mid-back lining, which facilitates movement and breathability.

The jacket features a buttonhole on the lapel, a detail that adds a touch of sophistication. The charcoal grey buttonholes contrast elegantly with the Cheviot fabric.

This jacket is equipped with one pocket on the inside of the right front and two pockets on the inside of the left front, one of which has a button. These pockets provide additional space to store personal items or work documents safely and securely.

The two-button design on the front closure adds versatility to the garment. The buttons are strategically placed to provide a snug fit and flatter the wearer's figure.

The centre back seam and slits in the back of the jacket allow for greater mobility and walking comfort.

Available sizes

44 46 48 50 52 54 56 58 60 62 64

Size guide

Measurements may vary slightly due to the production process. The garment is measured flat.
