Description

This blazer features a sleek, minimalist design with a single button front. This design accentuates a woman's figure and offers a sophisticated and professional look.

Made from X.Linen fabric, which consists of 65% polyester, 30% viscose and 5% elastane, this jacket offers a perfect combination of softness, strength and elasticity.

The jacket is lined on the inside, which enhances its durability and wear resistance. The lining also adds a touch of softness against the skin.

The lapel buttonholes and details of the jacket are in similar shades to the fabric, which adds a uniform and elegant look.

The jacket features two hip welt pockets, providing storage space for personal items or essential work tools.

The jacket closes front right over left, giving it a classic and sophisticated look.

Available in two colours: beige and aqua green. The aqua green colour is available upon request, allowing women to choose the shade that best suits their style and work environment.

This blazer is versatile and suitable for a variety of industries and work environments, including hospitality, reception, transport, office and general retail.

Men's version: 800024. Tailoring Collection.
