Composition / Treatment

TECNO 96% PES 4% EA - 215 gr/m²

Available colors

001 104 139

Reference: 812100-001 · NEGRO

Description

This jacket is made from TECNO fabric, which combines 96% polyester and 4% elastane. This blend of materials provides a better fit to enhance and shape the wearer's form, as well as offering stain resistance and easy ironing. It's a smart choice for those looking for durability and comfort.

The jacket features a super slim fit that adapts to the wearer's figure, offering a sleek and contemporary look. The front darts add a touch of sophistication to the design.

Three front welt pockets, one chest pocket and two side pockets, provide space to carry personal items or work tools in an organised manner. In addition, three interior pockets provide secure storage for valuables.

The centre back slit not only adds style to the design, but also provides freedom of movement, which is essential for professionals on the move.

This blazer is ideal for a wide range of work environments, including hospitality, catering, bands, reception, transport, office or retail. Its stylish and functional design adapts to a variety of work situations.
