Description

The TORRES unisex kitchen jacket is designed to fit both men and women, making it ideal for any member of the kitchen team. Its stylish design makes it a professional and attractive garment.

The long sleeves with turn-up cuffs not only provide style, but also allow for a custom fit at the wrists.

The crossover fastening with concealed press studs is not only stylish, but also makes it easy to get ready for work.

Made of 100% high-quality polyester, the jacket is durable and easy to care for. In addition, it is tolerant to bleach splashes, which is essential for maintaining high standards of hygiene in the kitchen.

The AEROSILVER technical fabric on the back of the jacket contributes to maintaining a fresh and bacteria-free working environment, which is essential in the kitchen.

The microfibre of which the jacket is made is antibacterial, making it ideal for a kitchen environment where hygiene is crucial. It is also highly breathable and resistant to bleach splashes.

The jacket is washable at 90° and dries quickly, making it easy to maintain without ironing.

The microfibre is hair and pet hair repellent, helping to keep you looking fresh all day long.

The jacket features an original print design on the left front and cuffs, adding a touch of unique style.

Available sizes

XS S

Size guide

Measurements may vary slightly due to the production process. The garment is measured flat.
